All wines start with grapes and all grapes start with “terroir,” or the dirt and climate in which the grapes are grown. The Lake Erie region was carved out by glaciers that left behind soil ideal for growing grapes. Lake Erie itself moderates the climate and makes it possible for grapes to grow here. Lake Erie Wine Country, formerly the Chautauqua-Lake Erie Wine Trail, is located in the largest grape-growing region east of the Rockies. It extends roughly 50 miles from Silver Creek, NY (Chautauqua County) to Harborscreek, Pennsylvania (Erie County), and is home to over 20 commercial and estate wineries. The wineries in Lake Erie Wine Country produce an abundant and diverse list of wines from very dry to sweet. These wines fall into four categories: fruity, native Labruscas; French-American; European Vinifera; dessert, ice and specialty wines.

### Guidelines for Groups (of 8 or more) Visiting Wineries:

- Please make reservations well in advance, and call wineries if you know you are running late so they can adjust.
- It is illegal for wineries to serve any intoxicated or under aged person. Please be respectful so others in the winery can also have a good experience.

### Special Guidelines for the Tour Operators (Buses and Limousines):

**Parking:** Park in designated areas (if available) to avoid blocking the entrance or parking lot traffic.

**Be Considerate:** It is illegal for customers to bring outside alcohol onto winery premises. Drivers should be proactive in handling guests and not drop off intoxicated individuals. Inform parties and other guests in advance that they must conduct themselves in an appropriate manner at wineries.

**Take Care:** Many wineries are on busy roads that are traveled at relatively high speeds. Drop guests off in a safe area close to each winery.

**Please:** Do NOT provide alcohol in buses or limousines en route to wineries.

**Thank you for doing your part to ensure that our visitors have a safe and fun experience in Lake Erie Wine Country.**
